## „ZDRAVLJE HOĆE CIJEĐENO VOĆE“

Naziv projekta: „Zdravlje hoće cijedeno voće“

Naziv implementatora: NVO „Društvo roditelja djece sa posebnim potrebama - Bar“

Lokacija: Opština Bar

Korisnici: 62 osobe sa invaliditetom

Opis projekta: Opšti cilj projekta je poboljšanje kvaliteta života OSI, kroz zapošljavanje i obuku za proizvodnju ZDRAVE HRANE – SOKOVI BEZ KONZERVANSA. Specifični ciljevi su povećanje zaposlenosti kroz zaposlenje i rad 1 lica sa invaliditetom, smanjenje broja nezaposlenih lica sa invaliditetom na evidenciji Zavoda za zapošljavanje CG, afirmacija mogućnosti lica sa invaliditetom, smanjenje stereotipa od strane društva u vezi mogućnosti zaposlenja i rada lica sa invaliditetom, motivisanje i podsticanje drugih nezaposlenih lica sa invaliditetom da se zapošljavaju, razvoj partnerstva između NVO i privatnog sektora, stvaranje uslova za socijalno preduzetništvo i po mogućnosti osnivanje socijalnog preduzeća, kada se donese zakon o istim.

Ciljnu grupu čine tri nezaposlene OSI sa evidencije ZZZ CG biro rada Bar i jedan asistent za pomoć OSI u toku rada. Kroz projekat su realizovane sledeće aktivnosti: Pripremne aktivnosti- odabir 3 OSI sa biroa rada Bar za obuku za rad na mašinama koje se koriste u ovom procesu, odabir stručnog lica za obuku OSI za rad na mašinama i dobijanje njegove saglasnosti da je voljan da učestvuje u projektnim aktivnostima. zatim odabir 1asistenta za pomoć OSI u toku radnog angažmana i obuke i zaključivanje ugovora o radu sa istim. Nakon pripreme faze uslijedila je - Kupovina mašina, zatim izvođenje praktične obuke za rad na mašinama nakon koje je urađen odabir kandidata za zasnivanje radnog odnosa i zaključivanje ugovora o radu sa istim. Urađena je i nabavka, sjemena i đubriva potrebnog za proizvodnju povrća, zatim posjeta plastenicima i mjestu proizvodnje sokova djece iz udruženja, kao i posjeta plastenicima i mjestu proizvodnje sokova djece iz vrtića i osnovnih škola iz Bara. Projektom je bila predviđena i prodaja sokova, zatim medijsko predstavljanje, evaulacija i završni izvještaj.

## “HEALTH WANTS SQUEEZED FRUIT”

Name of the implementer: NGO “Association of parents of children with special needs - Bar”

Location: Municipality of Bar

Beneficiaries: 62 PWDs

Project description: The general goal of the project is to improve the quality of life of PWDs, through employment and training for the production of HEALTHY FOOD - JUICES WITHOUT PRESERVATIVES. Specific goals are to increase employment through employment and work of 1 person with disabilities, reduce the number of unemployed persons with disabilities on the records of the Employment Bureau of Montenegro, affirm the opportunities of persons with disabilities, reduce stereotypes by society about employment and work of persons with disabilities, motivation and encouraging other unemployed persons with disabilities to find employment, developing partnerships between NGOs and the private sector, creating conditions for social entrepreneurship and, if possible, establishing a social enterprise, when the law on them is adopted. The target group consists of three unemployed PWDs from the records of Employment Bureau of Montenegro, precisely from the labor bureau of Bar and one assistant to assist PWDs during work. The following activities were implemented through the project: Preparatory activities - selection of 3 PWDs from the labor office Bar for training to work on machines used in this process, selection of an expert to train PWDs to work on machines and obtaining his consent to be willing to participate in project activities. Then the selection of 1 assistant to assist PWDs during their work engagement and training and concluding employment contracts with them. The preparatory phase was followed by the purchase of the machines, then we conducted practical training for working on the machines, after which the selection of candidates for employment was concluded and the employment contracts with them were finalized. Procurement of seeds and fertilizers needed for the production of vegetables was made, followed by a visit to the greenhouses and the place of production of juices attended by children from the association, as well as the children from kindergartens and elementary schools in Bar. The project also envisioned the sale of juices, followed by a media presentation, evaluation and a final report.
