**Project title:** "Professional Care Therapies Offering for Children with Autism, Down Syndrome and Special Needs"

**Name of implementer:** NGO „Autizmi Suhareke“

**Location:** Suhareka and various other locations within Republic of Kosovo.

**Beneficiaries:** 10 direct beneficiaries are children with autism, Down Syndrome, and children with disabilities. Whereas, indirect beneficiaries are families of the above mentioned children and the whole community of the Municipality of Suhareka. Project description: The offering of professional care therapies for children with autism and children with other disabilities on daily basis, the offering of weekly logopedic therapies for children with speech difficulties, and also the offering of psychiatric services/therapies concerning children's health and how to help them with regard to their health has helped considerably the education, rehabilitation, and integration of our children within the daily life of the community of Suhareka. At the same time, all these various activities and services/therapies organized or offered by our organization staff and collaborators have increased the awareness of the community with regard to Autism, Down Syndrome and special needs of children, their difficulties and their permanent support that these children need.

### **Project results:**

- 10 children with autism from our center receive day care services,
- 30 children with environmental skills received speech therapy and psycho-social services
- Children with abilities to perform at the main event marking the International Autism Day.
- Participation of the local institutions in our center as well as in important events
