RADNO-OKUPACIONA RADIONICA

Puni naziv projekta: „Radno-okupaciona radionica osoba oboljelih od cerebralne paralize“

Naziv implementatora: Udruženje oboljelih od cerebralne paralize i distrofije BPK Goražde

Lokacija: Goražde

Korisnici: 60 korisnika, članovi Udruženja i njihovi roditelji

Značaj projekta: Zahvaljujući projektu članovi udruženja su bili manje usamljeni i izolirani, te su ojačali svoj integritet i osnažili se za uklapanje u društvenu sredinu. Kroz radne okupacije potaknuta je kreativnost korisnika koju su uspješno prezentirali široj javnosti i lokalnoj zajednici. Ojačano je samopouzdanje sudionika radne okupacije i osjećaj pripadnosti, a javnost je bolje upoznata i senzibilizirana prema pravima, potrebama, željama i mogućnostima osoba s invaliditetom.

Ostvareni rezultati: Tijekom šest mjeseci projekta odvila se radna okupacija članova Udruženja oboljelih od cerebralne paralize i distrofije i njihovih roditelja gdje su izradivali platnene papuče, cekere, ukrasne jastuke, pamučne kecelje i maske za lice. Posebna pažnja se usmjerila na stvaranje sigurnog, ugodnog i poznatog okruženja u kojem su osobe s invaliditetom mogle slobodno izraziti svoje potencijale, a kroz maštu, kreativnost i stvaralaštvo je potican motorički, perceptivni, emocionalni, kognitivni i socijalni rast i razvoj svake osobe. Radna okupacija se provodila u radionici Udruženja „Životna pomoć“ za radnu okupaciju osoba s invaliditetom u kojoj su i zaposlene dvije osobe s invaliditetom. Organiziran je sastanak s gradonačelnikom grada Goražde i predstavnicima Gradske uprave gdje je predstavljeno djelovanje Udruženja i potrebe i problemi s kojima se susreću osobe s invaliditetom. Tijekom trajanja projekta učinjena je reklama proizvoda kako bi se osiguralo što adekvatnije tržište i kako bi se promovirali proizvodi u lokalnoj zajednici i šire. Izrađene su promotivne brošure u kojima se nalaze dosadašnje aktivnosti Udruženja i socijalnog poduzeća i proizvodi.

WORK-OCCUPATION WORKSHOP

Project title: „Radno-okupaciona radionica osoba oboljelih od cerebralne paralize“ („Work-occupation workshop for people with cerebral palsy“)

Name of the implementer: Association of patients with cerebral palsy and dystrophy BPC Goražde

Location: Goražde

Beneficiaries: 60 beneficiaries, Association members and their parents

Significance of the project: Thanks to the project, the members of the association were less lonely and isolated, and they strengthened their integrity and empowered themselves to fit into the social environment. Through work occupations, the creativity of users was encouraged, which they successfully presented to the general public and the local community. The self-confidence of the participants in the labor occupation and the sense of belonging have been strengthened, and the public is better informed and sensitized to the rights, needs, wishes and possibilities of persons with disabilities.

Achieved results: During the six months of the project, a working occupation of members of the Association of patients with cerebral palsy and dystrophy and their parents took place, where they made linen slippers, tote bags, decorative pillows, cotton aprons and face masks. Special attention was paid to creating a safe, comfortable and familiar environment in which people with disabilities could freely express their potential, and through imagination and creativity, motor, perceptual, emotional, cognitive and social growth and development of each person was encouraged. The work occupation was carried out in the workshop of the Association „Životna pomoć“ ("Life Assistance") for the work occupation of persons with disabilities, which also employs two persons with disabilities. A meeting was organized with the Mayor of Goražde and representatives of the City Administration, where the activities of the Association and the needs and problems faced by people with disabilities were presented. During the project, product advertising was done in order to ensure the most adequate market and to promote products in the local community and beyond. Promotional brochures have been prepared which contain the activities of the Association and the social enterprise and products so far.
