IN SOUTH EAST EUROPE

VRIJEDAN KAO PČELA

Puni naziv projekta: „Vrijedan kao pčela“

Naziv implementatora: Udruženje amputiraca Trebinje i Udruženje multiple skleroze regije „Istočna Hercegovina“

Lokacija: Grad Trebinje i općina Nevesinje

Korisnici: Nezaposlene osobe s invaliditetom

Značaj projekta: Zahvaljujući projektu poboljšan je standard kvalitete meda i zdravlja pčela u Trebinju i Nevesinju u skladu sa standardima EU. Stvorena je mogućnost za socijalno uključivanje osoba s invaliditetom i ekonomsko osnaživanje kroz stvaranje uvjeta za rad i održivost takvog ambijenta. Izgrađeni su pčelinjaci koji su prilagođeni za osobe s invaliditetom, povećana je zainteresiranost ove populacije za pčelarstvo, a širenjem pčelinjaka će se stvoriti mogućnost zapošljavanja barem jedene osobe s invaliditetom. Implementatori planiraju proširiti projekt na sve općine Istočne Hercegovine.

Ostvareni rezultati: Na početku i po završetku projekta putem medija su predstavljene planirane projektne aktivnosti i očekivani rezultati, kao i problemi s kojima se susreću osobe s invaliditetom, a zatim i urađene aktivnosti, održivost projekta i očekivano samozapošljavanje barem jedne osobe s invaliditetom. Nabavljena je potrebna oprema za pčelarstvo nakon čega su, uz pomoć volontera, uslijedile aktivnosti pripreme i izgradnje pčelinjaka u Trebinju i Nevesinju. Formirana su dva pčelinjaka od ukupno 30 košnica i pčelinjih društava. Održana je radionica za 12 osoba s invaliditetom o pčelarstvu gdje su se sudionici upoznali o upotrebi organskih preparata, o načinu rada u pčelinjaku i kako se radi na proširenju pčelinjaka.

HARD-WORKING AS A BEE

Project title: „Vrijedan kao pčela“ („Hard-working as a Bee“)

Name of implementer: Association of Amputees Trebinje and Association of Multiple Sclerosis of the region „Istočna Hercegovina“ („Eastern Herzegovina“)

Location: City of Trebinje and Nevesinje Municipality

Beneficiaries: Unemployed people with disabilities

Significance of the project: Thanks to the project, the standard of honey quality and bee health in Trebinje and Nevesinje has been improved in accordance with EU standards. An opportunity has been created for the social inclusion of persons with disabilities and economic empowerment through the creation of working conditions and the sustainability of such an environment. Apiaries adapted for people with disabilities have been built, the interest of this population in beekeeping has increased, and the expansion of apiaries will create the possibility of employing at least one person with disabilities. The implementers plan to expand the project to all municipalities in Eastern Herzegovina.

Achieved results: At the beginning and after the project, the planned project activities and expected results were presented through the media, as well as the problems faced by people with disabilities, followed by activities, project sustainability and expected self-employment of at least one person with disabilities. The necessary equipment for beekeeping was procured, after which, with the help of volunteers, activities of preparation and construction of beehives in Trebinje and Nevesinje followed. Two beehives were formed out of a total of 30 hives and bee societies. A workshop was held for 12 people with disabilities on beekeeping, where participants learned about the use of organic preparations, how to work in the apiary and how to work on expanding the apiary.
